### CONDEMN REED SMOOT MINERAL LAND BILL

Salt Lake, Aug. 16.—Senator Reed Smoot's bill proposing to give states title to mineral lands for school purposes was condemned by the mines and mining committee of the Salt Lake Commercial club, at a meeting held yesterday. The opposition was based on the contention that if title to mineral lands was given to the state it would work an injustice on locators and prospectors, and further that if the bill was passed in its present form, it would involve all the claims now located on school lands thus created.

Chairman Duncan MacViehe was delegated to prepare a resolution for presentation to the board of governors, stating the attitude of the committee on the matter. If the board accepts the recommendations a resolution will be forwarded to Senator Smoot, protesting against the bill in its present form.

### TOO LONG.

Brown—I wonder if Smith would indorse my note?

Brown—A month.  
Jones—I'm afraid that's too long—Chicago News.

### Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed. No matter how long deafness has been caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give one Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. **F. J. CHENEY & CO., Toledo, O.**  
Sold by Druggists. Take Hall's Family Pills for constipation.

## PULP NOTICE

### Attention Beet Growers

Beet Growers wishing to obtain pulp for home feeding are requested to forward their application for amount desired to John F. Barton, Manager, 416 24th St., Ogden, Utah, before August 20th.

After that date no applications will be received.

If you have not received application blank, call at our office for one.

No telephone orders received.

## CRITICISM OF WHITMAN

### Mayor Gaynor Issues Another Caustic Statement Regarding Action of the District Attorney in Taking Sides Against Police in Crusade on Cafes

New York, Aug. 15.—Mayor Gaynor issued another caustic statement today, criticizing District Attorney Whitman for siding against the police in the 1 o'clock curfew crusade on the restaurants.

"The district attorney," says the statement, "instigated this open and forcible resistance to the police. On Wednesday night he went to Healy's with a retinue of trained and brilliant writers to write him up and of flashlight photographers to take his picture in heroic attitude; and at 1 o'clock in the morning joined a mob which had been collected by concert to forcibly resist the police in doing their plain duty."

"If he thought the way the police were enforcing the law was not legal, it was his official duty to so advise the mayor or the police commissioner. Instead, the police find him in the midst of and siding with a disorderly crowd."

"I don't work as mayor through press agents and writers who can be easily obtained to falsify and puff. I have gone on, trying to leave this city and this government some better when I quit at the end of my term. I now call on decent people of this city to see to it that the police are not thwarted in this matter by the noisy and the vicious and the all-night gluttons and revelers."

"Let me add that on full inquiry I find that the police used no unnecessary force but behaved with discretion, patience and even forbearance."

### SALT LAKE I. W. W. MAKING THREATS

Salt Lake, Aug. 16.—"We will break their picks and shovels as fast as they give them to use," was the statement of several I. W. W.'s in answer to the announcement which had been made at the I. W. W. headquarters that the city authorities plan to arrest all incoming members of the organization who show no visible means of support.

Several I. W. W.'s at once said that the city could not furnish tools fast enough for the men who will arrive. "It is ridiculous to presume that our members will be arrested when they arrive," said one man. "The police would not dare do such a thing."

Handbills announcing a public meeting (to be held indoors) for the "riot victims" were scattered promiscuously throughout the city yesterday by members of the organization. Copies of a socialist paper, which tells at length the events of Tuesday night's riot, were for sale in the hands of a score or more I. W. W. members.

The newspaper quotes the story of Wednesday morning concerning the secret meeting of Axel H. Steele's men before the riot as conclusive evidence that Steele should be arrested for inciting a riot.

G. W. Clark, 28 years of age, and T. F. Rosse, 21 years of age, were arrested yesterday by Patrolman Carl C. Varstensen and held at police headquarters. It is alleged that both men are degenerates. A crime said to have been witnessed by Patrolman Carstensen will be the basis of the charges. Both men are members of the I. W. W., Clark being said to be a leader of the organization in this city.

Roy Rayner and M. Hanson, who were arrested here Thursday afternoon on suspicion of having been attempting the life of Axel H. Steele, were yesterday sentenced to serve fifteen days in the city jail by Judge N. H. Tanner of the criminal division of the city court. The men pleaded guilty to charges of vagrancy.

Chief of Police B. F. Grant said yesterday that reports of expected legions of the so-called "workers" would arrive in this city are more harmful than of good.

"The papers will keep on making such reports until all the tramps within a radius of 500 miles will come to this city to see if there really is anything going on," said the chief.

Salt Lake pawnbrokers were instructed yesterday by the police to make minute observation of all who purchased revolvers and deadly weapons of other kinds. While no marked increase in the sale of weapons has been reported, the police are on the alert for such purchases.

### RAY CONSOLIDATED COMPANY'S REPORT

New York, Aug. 15.—The Ray Consolidated Copper company reports for the quarter ended June 30 last, including the disbursed earnings of the Ray & Gila Valley railroad. Direct operating profit, \$716,601; miscellaneous income, etc., \$10,153; total profits, \$726,754; quarterly dividend paid June 30 amounted to \$543,662. The above earnings are computed on the basis of 15 cents a pound for copper produced. The capital stock of dividend payment was 1,449,765 shares. There was converted during the quarter \$9000 par value of bonds, leaving \$2,991,000 par value outstanding at the end of the period.

The total amount of copper on hand and in transit (sold and unsold) was 16,835,979 pounds, inventoried at an average value of 14.148 cents a pound. The average cost of mining for the quarter exclusive of 12 1/2 cents development charge was 73.921 cents a ton; the milling cost was 45.25 cents a ton. The average cost per pound of net copper produced during the quarter, after allowing for smelting deductions and after crediting income from the Ray & Gila Valley railroad, against operating costs, but without so applying other miscellaneous income, was 9.558 cents, as compared with 9.509 cents. The production during the quarter was 13,492,393 pounds, a new record.

### GOVERNMENT NEEDS MEN FOR MANY JOBS

Salt Lake, Aug. 16.—Uncle Sam wants a lot of help and he proposes

to select the employees he needs with in the next month by civil service examinations. Below is given a list announced yesterday by the secretary of the local examining board. Those who desire more details about any of the tests and positions named can get them by calling at the civil service window in the postoffice.

An examination for elevator conductor in the custodian service will be held September 1, salary \$560 per annum; an examination for fireman in the same service will be given September 12, salary \$720 per annum; an open competition for the position of mechanic in the bureau of standards at Washington will be held September 15, salary \$1020 per annum; an examination for the position of special agent in the bureau of labor statistics will be held September 3, salary \$1200 to \$1600 per annum; a competition for the position of assistant curator in the division of mineralogy and petrology in the national museum at Washington will be held September 3 and 4, salary \$1800; a test for the selection of apprentice plate cleaners, transferers and engravers in the government printing office will be held September 10, salaries varying according to the position; an examination for fireman in the bureau of standards will be held September 3, salary \$720 per annum.

### CATHOLICS CELEBRATE FEAST OF ASSUMPTION

Salt Lake, Aug. 16.—St. Mary's cathedral was packed to the doors yesterday morning at three special services held in honor of the feast of the Assumption and the fourth anniversary of the cathedral dedication. In addition to the special local significance of the day the visit of a party of 200 Catholics from Covington, Ky., conducted by ten priests, brought out a large attendance.

Starting at 7 o'clock, the visiting priests, led by the Rev. Father J. T. Ahlman, pastor of St. Aloysius' church at Covington, said mass at half hour intervals until noon. At times there were three masses being conducted at once, the side altars being used. Bishop Laurence Scanlan was in charge.

The two special masses were celebrated at 7 and 8 o'clock and solemn high mass at 10 o'clock. Bishop Scanlan was in charge. The celebrant of high mass was the Rev. Father Jerome Deiss. He was assisted by the Rev. Father James McNally, deacon, the Rev. Father Daniel Slattery, subdeacon, and the Rev. Father M. J. O'Reardon, master of ceremonies.

Roswig's mass in E. was sung by a quartette composed of Mrs. Thomas Atkinson, Mrs. Stewart Dobbs, John T. Hite and J. W. Curtis. The offertory, "Ave Maria," by Mascagni, was sung by J. D. Hayes, baritone of Toronto, Canada. Following the celebration of high mass, there was benediction, Haydn's "Te Deum" was given by the choir.

### RUSSIAN GRAND DUKE REACHES NEW YORK

New York, Aug. 15.—The Grand Duke Michael Alexander, brother of the czar, arrived here today on the steamer LaFrance. While in New York he will stay with Barclay Warburton. Later he will go to Newport. The royal visitor is a tall, distinguished looking man, closely resembling the czar Nicholas. He traveled as Monsieur G. Alexander on the steamer, and tried to preserve his incognito in the pier.

"My plans are a little bit indefinite," he said to the reporters. "From Newport I may take a trip out west, and try my hand at shooting big game. I have been here before, and well remember the courtesy shown me, when, as a lieutenant, I arrived in Philadelphia on the Russian warship, Dmitri Donskoi, in 1893."

The grand duke was formerly president of the Russian mercantile marine, and has been nicknamed "the royal inventor," as numerous inventions of his have been adopted by the Russian government.

### DEATH CLAIMS PIONEER

Spokane, Aug. 15.—A pioneer has just been received here of the death at her home at Bancroft, Idaho, Thursday evening of Mrs. Mary A. Johnson, who was one of the first pioneers of Springville. She came here with the first wagons, September 18, 1850. She was also a pioneer of Bancroft having moved there thirty years ago. Mrs. Johnson was born in Michigan eighty-three years ago, and was the mother of nine children, six of whom are living.

### FIRE DESTROYS OFFICE

Logan, Aug. 15.—Fire broke out today in the office formerly occupied by the Roberts Coal company, but which has been vacant for some time and the structure was destroyed, the blaze having obtained great headway before the fire alarm was sent in. The total loss amounts to between \$300 and \$400.

### MEXICANS SHOOT ALL PRISONERS

Galveston, Aug. 15.—Mexican federalists in the state of Durango are shooting all prisoners taken, regardless of nationality, according to O. V. Seifert, a mining man from that state. Seifert was one of a party of 200 refugees arriving Monday from Tampico on the Norwegian steamer Noruega and released from quarantine yesterday.

Seifert, who was born in Mexico of American parents, said he was accused of furnishing powder to the rebels and warned to leave the country within twelve hours. He left in haste. He told today of the killing by rebels of his cousin, Roger Palmer, cashier for the railroad company at Durango. Palmer was ordered to open the safes in his office. He opened but did not know the combination of the second and was shot down.

Seifert said bandits killed a German hardware merchant at LaBlanco two weeks ago, and assaulted his two daughters, aged 8 and 16 years. Both federalists and rebels engaged in looking in the state of Zatecas and Durango, according to the refugees. General Panfilio Morelos, the rebel commander, is doing all he can to restrain his men, they said.

The refugees were unanimous in saying both the better and lower classes of Mexicans are anxious there shall be no trouble between the United States and Mexico but that what they called the middle class is openly hostile to Americans.

Teacher—What is the difference between "I will hire a taxi, and I have hired a taxi?"  
Kid—About six dollars and a half.  
—New Orleans Times-Democrat.

## MAY LOSE THE TRAIL

### Coloradoans Fear the State May Not Be Able to Land the Midland Auto Route on Account of the Almost Impossible Condition of the Roads

(Special to The Standard.)

Denver, Aug. 15.—Factional differences over the route through western Colorado for the proposed transcontinental highway were embittered yesterday when L. B. Walbridge of Meeker, a member of the state highway commission, and W. S. Montgomery, also of Meeker, were denied the privilege of attending the meeting called for this morning at the Denver Chamber of Commerce.

Walbridge and Montgomery had come to Denver to present their claims in favor of the Meeker-Vernal route, branching off the Midland trail, at either Rifle or Grand Junction. When they called at the offices of the Denver Chamber of Commerce yesterday afternoon, they were notified by Secretary Deland that the meeting was only for representatives of towns on the Midland trail.

"I understand," said Walbridge, "that this was to be an open discussion of the various routes under consideration. There are advantages in favor of the road passing through Meeker and Vernal that we would like to present."

Deland replied that it was not to be a meeting of the Midland Trail association, but had been called for the Denver Chamber of Commerce to hear expressions of opinion from those residing along the trail.

The gathering at 9:30 o'clock this morning will be attended by delegations from Grand Junction, Glenwood Springs and several of the towns which will be cut off the highway in the event the route is changed. C. L. Newsum, Jr., and other members of the Midland Trail association are of the opinion that unless some other route is chosen, either before or after reaching Grand Junction, that Colorado may lose the transcontinental highway.

The faction favoring a change argues that the Indiana motorists who recently traveled over the Midland trail were much displeased with the last stretch of the road in Colorado, and the link between the Utah line and Salt Lake City.

The Denver Chamber insists that the trail shall go through Grand Junction and the other towns west of that point. Commissioner Walbridge declared yesterday that the Meeker-Vernal route would shorten the distance to Salt Lake by more than 100 miles, and he says that the governor of Utah and the other state officials favor a change of the way. The failure of the counties in eastern Utah to properly improve their part of the highway is another reason given why the route should be changed.

The supporters of the Meeker-Vernal

nal contention say that they are not striving to take the highway from Grand Junction, but they believe that it offers better inducements, and that if it can be shown that a better route is accessible they will gladly relinquish their claims.

### CONSULT SALT LAKE MAN ON THE CURRENCY LAW

Salt Lake, Aug. 16.—Frank E. McGurrian, president of the Salt Lake Security & Trust company, is expected home within a few days from an important mission to the national capital. Mr. McGurrian was recently highly honored by being invited by a member of the committee on currency legislation of the national house of representatives to come to Washington and give his views upon certain features of the proposed currency bill. Mr. McGurrian accepted the invitation and left the city at once.

One of the reasons for extending the invitation to Mr. McGurrian is that the committee is desirous of obtaining the views of men who are familiar with trust companies and the securities in which they deal most largely. Also, as to whether trust companies may participate in the plan of the national government funds to banks as is shortly to be done in the south, and west, and as is also contemplated in the currency legislation now under consideration.

The present plan contemplates the hypothecation by the banks with the government of government bonds and gilt-edged commercial paper. An additional matter to be discussed and that is why the representatives of trust companies were invited to attend the meetings of the committee, concerns the advisability of including first mortgages on real estate in the list of securities.

It is generally conceded that there is no better security, government bonds excepted, than first mortgages on improved real estate, but the fact that mortgages of this character usually run for a specified term of years and are not as quickly negotiable as commercial paper and bonds, has proved a stumbling block.

### CREAMERY PROSPEROUS

Monroe, Aug. 15.—The annual meeting of the stockholders of the Monroe Creamery company was held here last night. This company is composed principally of milk producers, each of whom owns a limited amount of stock.

The secretary's report showed that the business was in excellent condition. More than \$21,000 worth of cheese has been sold during the year and the stockholders received recently a dividend of 12 per cent. It was decided at this meeting that a milk producers' dividend of 5 per cent be paid on December 1 of this year. This dividend will be paid according to the value of the milk each farmer sent to the factory during the year. It was also stated by the secretary that the price paid for milk had on the whole been more than that paid by outside creameries.

It was also decided that the milk producers should get whey in proportion to the milk furnished. If any one did not want it he could sell it. The local factory produces an excellent quality of cheese, which is in demand in many parts of the state.

Alma Magleby, Joseph H. Jensen, James Brown, Jacob Magleby, Neil C. Sorenson, Anor Yergensen and Yergensen Yergensen were elected as a board of directors. The present officers are: Joseph H. Jensen, president; James Brown, vice president; Jacob Magleby, secretary-treasurer.
